ABOUT US

Established in 1999, Indian Institute of Information Technology Allahabad (IIIT-A) today is recognized globally as a leader in the field of Information Technology and allied areas by the Government of India.

Pragma is the premier student developers' conference held at IIIT-Allahabad. Attracting some of the best student developers from across India, Pragma is a 1 day extravaganza featuring a hackathon, workshops and numerous talks. Pragma's main aim is to spark conversations between the students and get their ideas flowing because young blood often produces revolutionary ideas. Pragma will feature talks from some of the most experienced people from the developer community.

PRAGMA's VISION

Vision 01

Our vision is to help student developers learn from and work with some of the most experienced and skilled developers in the country, as well as to give them the opportunity of interacting with new technologies that they otherwise might not have been familiar with.

Vision 02

We want to create a space that nurtures and encourages students to let their creative juices flow freely and engage in lively discussions with each other, which may sow the seeds for some truly revolutionary ideas. We hope that this initiative will make a significant contribution towards using development to solve real world problems.

Celebrating Diversity

A thing can't survive if it attempts to be exclusive.' We, at Pragma, live by this principle and hope to make this a place where young developers can come together and interact with no holds barred. We are dedicated to promote a fair environment and eliminate any bias against race, ethnic background, sexual orientation, gender and disability. To celebrate the spirit of diversity, we have few slots reserved for female speakers, and some 'girls-only' dev sprints as well.
